I'd state they're a last holiday resort if any holiday resort at all. It makes no difference if you are searching for top quality films for example divx or regular flash movies that streams to some windows media player. Heres a brief video summary of using Play - On along with your Roku box. The only stipulation was that you just had to offer the disc in the drive to try out movies. If that you do not, you will need to download probably the most up to date version of Adobe flash or even an alternative by looking at the website.
