Rentrak's Livek also noted that previously five years, the entertainment VOD viewing has 'doubled, not merely with transactions ' and also with time spent. Schoenberg at the same time went on to state: "It is only the start, higher than the further 4 years movie viewers will practice the genuine features of video links. Buffering happens when the computer can playback the playback quality in real time faster than being received in the streaming service servers. Consult the documentation that was included with your equipment or navigate to the manufacturer's website or Netflix website for instructions concerning how to set up Netflix on your own home theater device. These are some of the more general problems felt by South Africans.
