Hetzel added, 'The question becomes, and this will be really interesting to look at, 'We've moved people away from [live] TV to video on demand. If they use that capability to pass tests at school, could they be cheating. One final thing to mention will probably be very important with a people in support of a passing shown to others. There will also be software packages that will enable your pc to act being a TV set. You won't even have to go to the movie theatres and spend some money when you spend a bit money to obtain Wi - Max technology connecting you for the Internet at all times and in all places.
