Rentrak's Livek also noted that in the past five years, the entertainment VOD viewing has 'doubled, not simply with transactions ' and also with time spent. It makes no difference if you happen to be searching for high quality films including divx or regular flash movies that streams to a windows media player. Buffering occurs when the computer can playback it in real time faster than being received through the streaming service servers. The only stipulation was that you just had to get the disc inside drive to try out movies. These are some in the more general problems gone through by South Africans.
