While it's likely and occasionally even very easy, it is not the best solution. You will also have to consider that broadband speeds will always be impacted by peak periods throughout the evenings when other people are trying gain access to the internet and providers artificially limit connections to make it fair on all customers. The most available internet TV channels include some of the rarest programs that are included with uncensored content, to find out also a large amount of other family TV shows to view with the family. There will also be software packages that can enable your personal computer to act as a TV set. The amount of things it is possible to do on the is endless.
