I even found movies i downloaded without signing up. You may also have to consider that broadband speeds are always impacted by peak periods in the evenings when other people are trying to access the internet and providers artificially limit connections making it fair on all customers. It's a simple 18 megabyte download that installs a neighborhood copy of the Netflix software, you'll be able to start watching your movies. There can also be software packages that will enable your personal computer to act as being a TV set. When the download is complete you are able to check that it is working on You - Tube or Catch up TV with all the Dolphin browser.
