Hetzel added, 'The question becomes, and this will be really interesting to look at, 'We've moved people from [live] TV to video on demand. You may also have to consider that broadband speeds will almost always be impacted by peak periods during the evenings when most people are trying gain access to the internet and providers artificially limit connections making it fair on all customers. These days it is all totally available on the internet, you can watch movies online online. This small device can connect in your home network, either with a wired or wireless connection. The amount of things you can do on the website is endless.
