Hetzel added, 'The question becomes, and this will be really interesting to watch, 'We've moved people faraway from [live] TV to video on demand. You may also have to consider that broadband speeds will always be impacted by peak periods through the evenings when other people are trying to get into the internet and providers artificially limit connections to make it fair on all customers. These days everything is available on the internet, you can watch movies online online. This small device can connect for your home network, either having a wired or wireless connection. The volume of things you'll be able to do on the is endless.
