While it's likely and occasionally even a breeze, it's not the best solution. You may also have to consider that broadband speeds will almost always be impacted by peak periods in the evenings when everyone else is trying to get into the internet and providers artificially limit connections making it fair on all customers. One very last thing to mention will be very important for some people and just a passing considered to others. There are also software packages that will enable your computer to act as a TV set. You won't even have to go on the movie theatres and spend some money when you spend somewhat money to acquire Wi - Max technology connecting you towards the Internet constantly and in all places.
