They said these were an international company and anyone on the planet could join. It makes no difference if you might be searching for good quality films including divx or regular flash movies that streams to some windows media player. Buffering happens when the computer will be able to playback it in real time faster than being received from the streaming service servers. Well you will find, but you will find also some big duds too. If you do not, you will have to download probably the most up to date version of Adobe flash or an alternative by visiting the website.
