Downloading the Flash Player and Dolphin browser as detailed above must also enable the You - Tube downloader to operate properly. If they will use that capability to pass tests in class, is he cheating. It's a simple 18 megabyte download that installs a neighborhood copy in the Netflix software, then you can definitely start watching your movies. There will also be software packages that may enable your computer to act as a TV set. The level of things you can do on the website is endless.
