I'd state they're a last holiday resort if any holiday resort at all. It does not matter if you might be searching for high quality films for example divx or regular flash movies that streams with a windows media player. Buffering happens when the computer will be able to playback the video in real time faster as opposed to being received in the streaming service servers. Well you'll find, but you'll find also some big duds too. These are some from the more general problems gone through by South Africans.
