While it's likely and occasionally even super easy, it is not the best solution. You can also get to consider that broadband speeds will almost always be impacted by peak periods in the evenings when everyone else is trying to access the internet and providers artificially limit connections to restore fair on all customers. These days it is all totally available on the internet, you can watch movies online. There may also be software packages that will enable your pc to act as a TV set. The volume of things you are able to do on there is endless.
