While it's likely and occasionally even very easy, it isn't the best solution. You will also have to consider that broadband speeds are always impacted by peak periods throughout the evenings when other people are trying to gain access to the internet and providers artificially limit connections making it fair on all customers. These days it is all totally available online, you can watch movies online. There can also be software packages that can enable your pc to act being a TV set. The amount of things you'll be able to do on the website is endless.
