While it's likely and occasionally even quite simple, it isn't the best solution. You may also have to consider that broadband speeds are invariably impacted by peak periods during the evenings when other people are trying to get into the internet and providers artificially limit connections making it fair on all customers. One last item to mention will probably be very important to many people in support of a passing considered to others. There will also be software packages that may enable your personal computer to act as being a TV set. The amount of things you can do on there is endless.
