While it's likely and occasionally even super easy, it is not the best solution. You may also have to consider that broadband speeds will always be impacted by peak periods during the evenings when most people are trying to get into the internet and providers artificially limit connections making it fair on all customers. It's a fast 18 megabyte download that installs a neighborhood copy from the Netflix software, you'll be able to start watching your movies. There are also software packages that will enable your personal machine to act like a TV set. When the download is complete you are able to check that it must be working at You - Tube or Catch up TV while using Dolphin browser.
