They said they were an international company and anyone in the world could join. It makes no difference if you happen to be searching for top quality films including divx or regular flash movies that streams to your windows media player. Buffering takes place when the computer can playback the video in real time faster than being received from your streaming service servers. The only stipulation was that you just had to offer the disc within the drive to play movies. You can even get online watching movies while you're sitting in a company partner's office looking forward to your important meeting to start.
