While it's likely and occasionally even a breeze, it isn't the best solution. You can also get to consider that broadband speeds are always impacted by peak periods in the evenings when other people are trying to gain access to the internet and providers artificially limit connections making it fair on all customers. One last item to mention will likely be very important for some people and just a passing shown to others. There can also be software packages that may enable your personal machine to act being a TV set. When the download is complete you can check it is working by going to You - Tube or Catch up TV while using Dolphin browser.
