While it's likely and occasionally even very easy, it isn't really the best solution. You may also have to consider that broadband speeds are invariably impacted by peak periods during the evenings when everyone else is trying to get into the internet and providers artificially limit connections to make it fair on all customers. These days everything is available online, you can watch movies online online. There can also be software packages that may enable your pc to act being a TV set. Guaranteed safe and reliable- Online movies are safe to watch.
